Summary:

Who is Amer? That is a question that I keep asking myself. I am a person who has been involved in a number of spectrums. My curiosity always pushed me to go for new experiences, meet new people, and take new risks. My BA in Global and Development Studies is manifested in the developmental roles I played globally as an entrepreneur, European projects manager, co-founder, WIX web-developer, graphic designer, logistics manager, multiple NGOs member, fundraising organizer, writer, consultant, and participant in several other positions and activities. Today, however, I am doing another difficult, time-consuming, and enjoyable investment in life. The noble investment in education. I am enrolled in three different Master's degrees at the same time to utilize every second of my time. That brings us back to the question, who is Amer? As an embracer of the quote "live to learn, and learn to live", I believe that I am on a boundless journey of learning about myself. Nonetheless, one thing I am certain about is that I am an admirer of development. Neither development has boundaries, nor do I.
